RARE! Backyard OASIS in the city PLUS huge detached shop/garage with a separate driveway AND a 3-bedroom, 1996-built home with newer roof, newer mini-split and freshly refinished hardwood floors.

The kitchen boasts granite counters and stainless appliances and features a door to the big covered deck with programable lighting. Step off the deck into your private, custom paver patio space with stunning use of lighting and plants that creates the perfect spot for a hot tub. Stroll across the lawn to the concrete patio & enjoy your firepit.

No matter the weather, you're set with heating and cooling from the mini-split as well as a newer (certified) wood stove. There is a bedroom on the main floor and two large bedrooms upstairs with a full bathroom and laundry room. There is a custom dog door to a dog run that you have to see to believe. Minutes to New Seasons, Fred Meyer, dining, parks & community garden.
